BARLEYGREEN®

- **BARLEYGREEN is a young barley organic extract with 20 times the concentration**

- **Known as a complete nutritious food by supplying alkaline vitamins, minerals, proteins, living enzymes, and alkaline chlorophylls for detox and strengthening the body's immune system**

4 BARLEYGREEN STRATEGIES

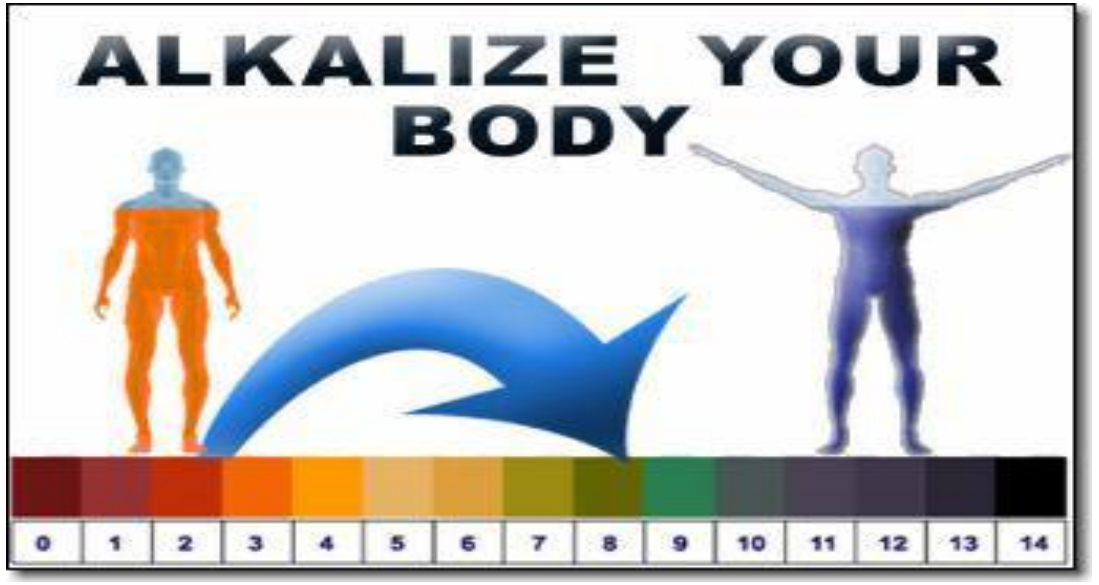
Detox — Detoxify at cellular level to boost energy and improve body condition

Alkaline — Alkaline balances body acidity to maintain good health

Rejuvenate — Rejuvenate and regenerate cells to look youthful

Energize — Energize with complete nutrients 16 vitamins, 17 minerals, 18 amino acids and more than 300 live enzymes

BALANCE AND RESTORE ALKALINE ACIDITY



- Barley Green helps maintain a balance between acidity and alkalinity in the body
- Human cells can not function properly in acidic conditions.
- Barley Green contains minerals such as sodium, potassium, calcium, and magnesium.
- These minerals neutralize acidic substances and can help maintain a healthy acidity-alkalinity balance

Yoshihide Hagiwara M.D.

“I identify the green juice of vegetables is as the richest source of nutrients available to humans”
DR. HAGIWARA

His research on more than 150 species of plants, including grass, herbs, vegetables and fruits, has led him to find out almost 40 years ago that young barley was "one of the most balanced diet in nutrition."

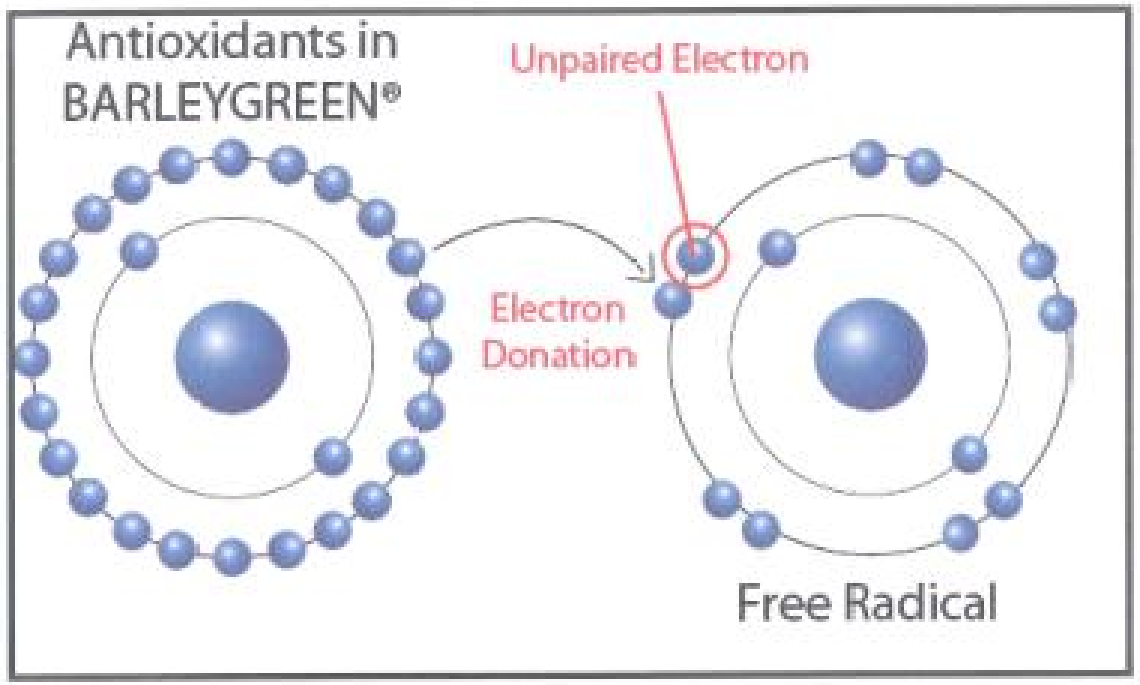
To capture and protect the nutrients and subtle enzymes in the newly harvested barley grass, it develops and reinforces the extraction process of juices and unique spraying processes that obtain it as the prestigious Science and Technology Award in Japan. This process makes Barley Green® rich in powder, rich in nutrients, first developed in Japan in 1969

	MACRONUTRIENTS	
Protein	Carbohydrates	Fat

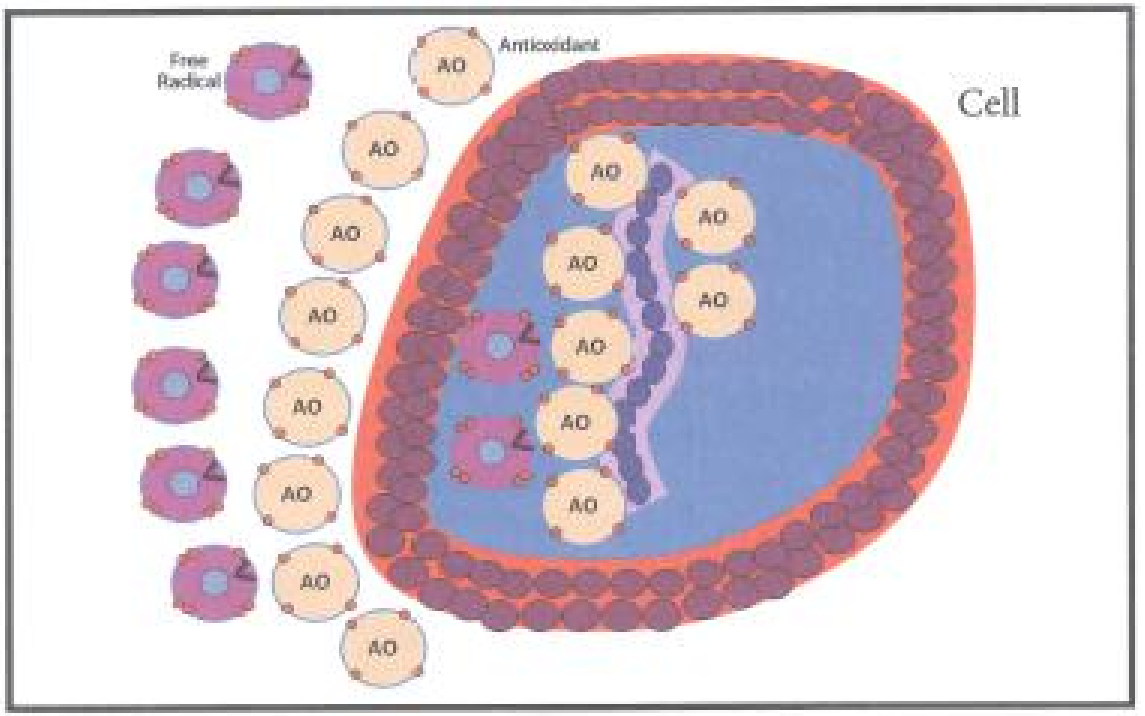
16 Vitamins	17 Minerals (at minimum)	18 Amino Acids	More than 300 Live Enzymes
Beta carotene	Boron	Alanine	Aspartate aminotransferase
Biotin	Calcium	Arginine	Catalase
Choline	Chloride	Aspartic acid	Cytochrome oxidasee
Folic acid	Chromium	Cystine	DNase
Niacin	Cobalt	Glutaminc acid	Fatty acid oxidase
Pantothenic acid	Copper	Glycine	Hexokinase
Vitamin A	Iodine	Histidine	Malic dehydrogenase
Vitamin B1	Iron	Isoleucine	Nitrate reductase
Vitamin B2	Magnesium	Leucine	Nitrogen oxyredutase
Vitamin B6	Manganese	Lysine	Peroxidase
Vitamin B12	Nickel	Methionine	Peroxidase catalase
Vitamin C	Phosphorus	Phenylalanine	Phosphatase
Vitamin E	Potassium	Proline	Phospholipase
Vitamin F	Selenium	Serine	Polyphenoloxidase
Vitamin K	Sodium	Threonine	RNase
Vitamin P	Sulfur	Tryptophan	Superoxide dimutase
Chlorophyll	Zinc	Tyrosine	Transhydrogenase
	Trace amounts of more than 50 other minerals	Valine	* 2"-O-GIV is also a powerful antioxidant P_4D_1 contains anti-inflammatory compounds
			and many other Live Enzymes

ANTIOKSIDAN DI DAUN BARLI MUDA

2”- OGIV – is a powerful antioxidant to protect healthy cells from being destroyed by free radicals



Antioxidants in BARLEYGREEN® donate electrons to free radicals to neutralize them.



ENZYME FUNCTION IN BARLEY GRASS SEEDLINGS

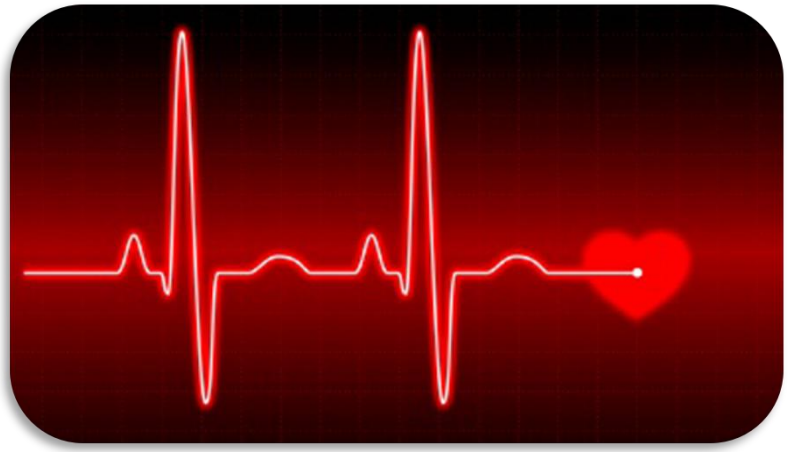
Barleygreen is very rich in two powerful enzymes:

P4D1	Superoxide Dismutase (SOD)
• Reduces the ability to produce normal nitro-oxide and BHT cancer • P4D1 has been found to have anti-peptic ulcer & anti-inflammatory function • P4D1 helps in the repair of DNA, Dr. Yusua Hotta of the University of California found that BG juice powder promotes the destruction of damaged DNA in the cell nucleus	• The main role in human nutrition is to counter the adverse effects of superoxides, the chemical name for various criminals called FREE RADICALS • Reduces the effects on the aging process • BarleyGreen is a great source of SOD

FUNCTION OF ACTIVE ENZYME SOD

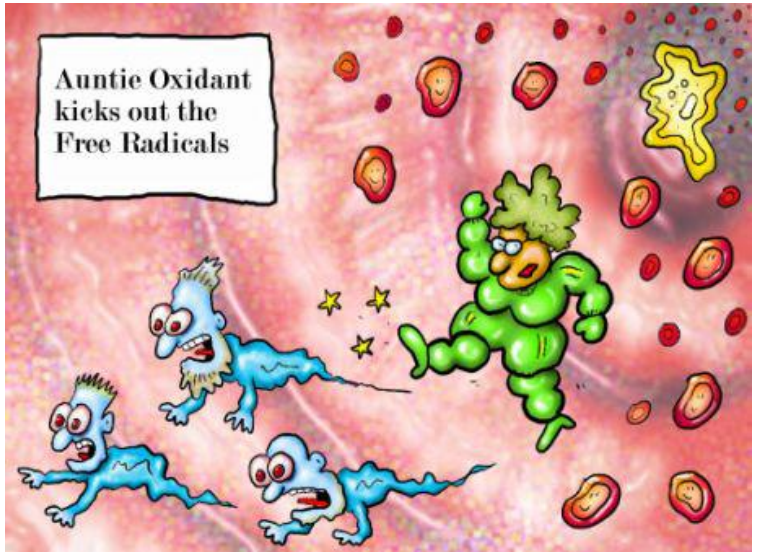
Reduce arthritis inflammation

Helps in wound healing



Prevent irregular heartbeart

Reduce risk of cancer



Slows down aging

How To Consume

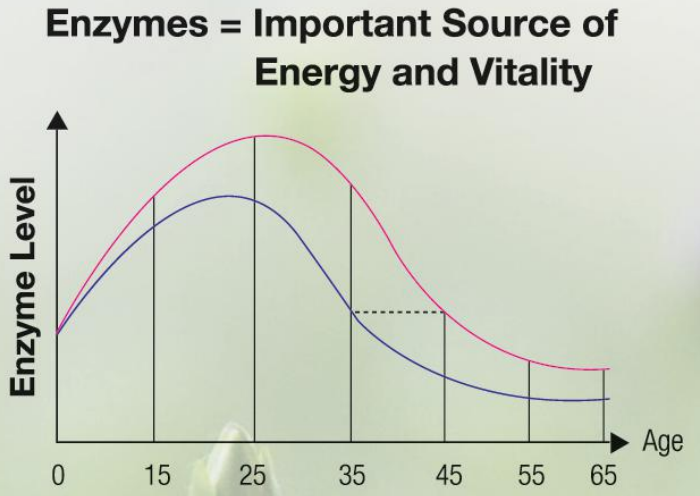
- Mix 1 tablespoon with 170ml of water or with your favourite juice.
- Do not consume with hot liquids since heat will destroy the live enzymes.
- 1 or 2 times daily on empty stomach (20 minutes before or 2 hours after meal)

Recipe

Unique Selling Points

ORGANIC
BARLEYGREEN®
PREMIUM

World's Best Selling since 1987



FEATURES

- Organic + High Energy
- 300 types of Live Enzyme
- High Alkaline
- Wholesome Food
- 20 times Concentrated and Fully Assimilated

BENEFITS

1. **Detox = Boosts Energy**
   Detoxifies at celluler level and improves body condition
2. **Balance = Maintains Health**
   Improves metabolism, revitalizes and balances the acidity of our body
3. **Nourishing = Promotes Youth**
   Complete nutrients - Wholesome Superfood

Enjoy the energy of 35 at the age of 45

Barley juice consumers possess higher density of enzymes.
Non-barley juice consumers possess lower density of enzymes.
